AMENDMENT NUMBER ONE.

An act relating to the conduct of elections and to provide an additional and cumulative system in receiving and counting ballots and making returns thereof.

Amendment adopted.

AMENDMENT NUMBER TWO.

Strike out all the body of the bill after the enacting clause, and insert in lieu thereof the following:

SECTION 1. In all elections under this act, the election board shall consist of one inspector, three judges and four clerks.

SEC. 2. At the time of the appointment of election officers, or at any time prior thereto, for any election the governing body of any political corporation or subdivision, in respect to such corporation or subdivision and the board of supervisors for their respective counties, in the case of general elections or elections involving more than one county, may order, if they so desire, by resolution entered on the minutes of such body, that the ballots of such election be received and the votes canvassed and returned, as provided in this act.

When so ordered, the provisions of this act, in so far as applicable, shall control as to the conduct of such election, and the receiving and counting and return of the ballots thereof. In all other respects said election shall be conducted as provided by law.

SEC. 3. In all elections under this act, each polling place shall be provided with three ballot boxes and a screened place or separate room adjacent thereto where the votes can be canvassed. Every two hours the ballots shall be taken to such canvassing place by two of the judges and two of the clerks and the votes canvassed. One of the extra ballot boxes shall be substituted for the ballot box while such canvass is progressing and the votes as counted shall be deposited in another locked ballot box provided for that purpose and shall not be removed and strung except as hereinafter provided.

At each change of ballot boxes the same must be opened and closed as provided in section one thousand one hundred sixty-two of the Political Code.

The judges and clerks must each take an oath to be administered to them by any person authorized to administer oaths or by the inspector in the following form: "I, A. B., do swear (or affirm) that I will duly attend to the duties fixed by law to be performed by me as a member of the election board and I will not prior to the closing of the polls communicate in any manner directly or indirectly by word or sign the progress of the count nor the result so far ascertained, nor any information whatsoever in relation thereto; that I will make a perfect return of the said election and will in all instances truly, impartially and faithfully perform my duties respecting the same to the best of my judgment and ability; that I am not directly or indirectly interested in any bet or wager on the result of this election."

Until the polls are closed the canvass shall be secret. After the polls are closed the canvass must be public in the presence of the bystanders and must be continued without adjournment until the result thereof is declared.

SEC. 4. Any person who shall ascertain, or attempt to ascertain the progress or state of count before the close of the polls and any officer of election who shall in any manner communicate directly or indirectly the progress of election or give any information as to the result of the count before the close of the polls will be guilty of a misdemeanor punishable by imprisonment of not less than three nor more than twelve months or by a fine of not less than five hundred dollars or more than one thousand dollars or by both such fine and imprisonment.

SEC. 5. If two or more separate ballots are found to be folded together so as to present the appearance of a single ballot, they must be laid aside until the count of ballots is completed for each installment of said count as in the previous section provided; then, if upon a comparison of the count with the number of names of electors on the lists which have been kept by the clerks, it appears that the two ballots folded together have been cast by one elector they must be rejected.

SEC. 6. At each installment of a count the ballots must be immediately replaced in the box and if the ballots in the box exceed in number the names on the lists, which have voted prior to the count as to said installment, one of the judges must without looking into the box draw out therefrom singly, and destroy unopened, a number of ballots equal to such excess, and the board of election must make a record upon the poll list, of the number of ballots so drawn and destroyed.

SEC. 7. Before the count of the final installment of votes the number of ballots agreeing or being thus made to agree with the number of names on the lists, the lists must be signed by the inspector and by at least two of the judges and attested to by at least two of the clerks, and the number of names thereon must be set down in words and figures at the foot of each list, and over the signatures of the said inspector, judges and clerks, substantially in the form prescribed in section one thousand one hundred seventy-four of the Political Code.

SEC. 8. After the lists are thus signed the board must proceed to open the final installment of ballots and canvass the same. At all elections where a general ticket and a municipal ticket are used as to each installment, the canvass of the general ticket must be completed before the canvass of the municipal ticket is commenced. All ballots rejected for illegality must have endorsed upon the ballot the cause of such rejection, and signed by a majority of the election board. Before the count of the final installment the ballots shall be removed from the locked box in which the ballots counted during the previous installments have been placed, and strung upon a string, and as the count of the final installment progresses each ballot counted must be strung.

SEC. 9. Each of the clerks must write down each office to be filled, and the name of each person marked in each ballot as voted for to fill such office, and keep the number of votes by which, as they are read aloud. Such tallies must be made with pen and ink or indelible pencil as the name of each candidate voted for is read aloud from the respective ballot, and immediately upon the completion of the tallies the clerks who respectively complete the same must draw two heavy lines in ink from the last tally mark to the end of the line in which such tallies terminate, and also write the initials of the person making the last tally in such line.

SEC. 10. Before the count of the final installment the ballots in the box must be strung by the judges, and must not thereafter be examined by any person, and as the count of the final installment progresses they must be so strung without any further examination and must, as soon as all are counted, be carefully sealed in a strong envelope, two of the judges, two of the clerks and the inspector, each writing his or her name across the seal.

SEC. 11. As soon as all the votes are counted and the tickets sealed up, lists must be attached to the tally lists containing the names of persons voted for, and for what office, and the number of votes given for each candidate, the number being written at full length, and such lists must be signed by two of the judges and inspector and attested by one of the clerks substantially in the form specified in section one thousand one hundred seventy-four of the Political Code.

SEC. 12. The board must, before it adjourns, enclose in a cover, and seal up and direct to the county clerk, the copy of the register upon which one of the judges marked the word "voted" as the ballots were received, all certificates of registration received by it, one of the lists of the persons challenged, one copy of the list of voters, and one of the tally lists and list attached thereto. The board must also, before it adjourns, post conspicuously, on the outside of the polling place, a copy of the result of the votes cast at such polling place; such copy of the result must be signed by the inspector, at least two of the judges and attested by at least two of the clerks. The board must also immediately transmit unsealed to the county clerk a copy of the result of the votes cast at such polling place, which copy must be signed by at least two of the members of the board as hereinbefore provided, and which copy shall be open to the inspection of the public. It shall be a misdemeanor for any person to remove or deface such posted copy of the result or to delay or change the copy to be delivered to the county clerk. After the polls are closed the inspector shall designate two of the judges and two of the clerks to remain with him to finish the

canvass and declare the result, and such five members of the board shall be a quorum and be sufficient to do all things required by law to be done by such board of election after the closing of the polls.

SEC. 13. This act is intended as an optional and cumulative act in addition to other laws concerning elections now in force, and is not to be construed as repealing any provision of law now in force relating to elections.

SENATE JOINT RESOLUTION No. 31.

Relative to the protection of the business of producing tungsten ore.

WHEREAS, There has been created in the United States through the production of domestic tungsten ore, a mining industry capable of producing sufficient of this material to supply all the needs of trade, creating whole communities depending for their existence on its maintenance, and giving employment to thousands of men under American standards of labor; and

WHEREAS, In order to release shipping for vital war measure transportation, such embargoes were, during the war, placed upon importation of said ore from foreign sources that domestic capital, encouraged by agents of the government, has been enabled to open up and develop deposits of tungsten ore in this country with such success that, with proper governmental assistance, its production as a permanent industry can now be maintained without undue burden to any other; and

WHEREAS, In the present tariff act, while there is a small measure of protection given to the finished product in which tungsten is used, there has been eliminated even the inadequate protection that was formerly given to the raw material itself, and upon the signing of the armistice the industry has been suddenly exposed to the importations from cheap labor countries, particularly from China and Bolivia, where the wages paid to the labor employed in this industry is one-eighteenth the American standard—an importation with which under present conditions it is impossible for either capital or labor in this country to contend—and unless through embargoes or an emergency war measure tariff proper assistance is given by the government to the producers of tungsten, the business is in serious danger of being wiped out, the capital invested lost, the communities created dispersed, the labor employed therein scattered and the country again rendered dependent for its supply upon foreign sources; now, therefore, be it

Resolved by the senate and assembly, jointly. That the legislature of the State of California hereby respectfully urges the senators and representatives of the state in congress to use their best endeavors to secure such remedial legislation, as an incident

of the Government of the United States, which through legislative directions for submission of proposed laws, resolutions or through a committee was transmitted, printed, and distributed to the members of the Senate for the period when and wherever and then again to the members thereof, and such printed copies as will be printed for circulation for the members of both Houses and others, and be it further:

Resolved, That copies of this resolution be forwarded to each of the United States Senators and representatives in Congress from this State, and to the chairman of the committee on Finance and Banking in both the United States Senate and House of Representatives.

CABLEGRAM.

The following cablegram was received and read:

PARIS, FRANCE, April 8, 1919.

*Hon. Joseph A. Beck,
Secretary of Senate of California,
Sacramento, California.*

Your considerate cablegram in relation to the proposed land legislation in the State of California and in regard to the landing of so-called picture brides has been received. I wish to express to you on behalf of the President and myself our appreciation for your informing us of the bills which will be introduced in the State Senate. In view of the present situation in international affairs here in Paris, it would be particularly unfortunate to have these bills introduced or passed at the present time. There are other problems which would make such action very embarrassing. I sincerely hope that you will inform the Senate of the contents of this cablegram, and the earnest plea on the part of the President that no legislation such as that proposed will be introduced or considered at this time. Expressing my thanks to you for this opportunity to consider the advisability of legislation affecting our foreign relations, I am with respect,

Yours very truly,

ROBERT LANSING.

REPORT OF STANDING COMMITTEE—(OUT OF ORDER).

By consent of the Senate, the following report of standing committee was received and read out of the regular order:

ON GOVERNMENTAL EFFICIENCY.

SENATE CHAMBER, SACRAMENTO, April 10, 1919.

MR. PRESIDENT: Your Committee on Governmental Efficiency, to which was referred Senate Bill No. 365—An act to amend section 1 of an act entitled "An act to fix

the salaries of the State Forester, Deputy Forester and Assistant Forester," approved March 22, 1909, and repealing all acts and parts of acts inconsistent therewith—has had the same under consideration, and respectfully reports the same back, and recommends that it do pass, and be re-referred to Committee on Finance.

BENSON, Chairman.

Senate Bill No. 365 re-referred to Committee on Finance.

REPORT OF SPECIAL COMMITTEE—(OUT OF ORDER).

By consent of the Senate, the following report of special committee was received and read out of the regular order:

SACRAMENTO, CALIFORNIA, April 10, 1919.

To the members of the Senate and Assembly.

The Legislative Committee named to investigate the cost of milk, bread and eggs in California, composed of three members of the Senate and three members of the Assembly, begs to submit the following report:

REPORT OF LEGISLATIVE COMMITTEE OF CALIFORNIA ON HIGH PRICES OF BREAD, MILK AND EGGS.

To the Legislature of the State of California.

On the fourth day of March, 1919, the Legislature adopted Assembly Concurrent Resolution No. 10, as follows:

ASSEMBLY CONCURRENT RESOLUTION NO. 10.

Relative to investigation by the legislature of the price of certain food commodities. (Introduced by Mr. Prendergast.)

WHEREAS, The price of bread, milk and eggs was greatly increased owing to conditions incident to the war in which the United States has been engaged; and

WHEREAS, The prices of the necessities of life are a matter of great and vital interest to all of the people in the State of California; and

WHEREAS, Notwithstanding that announcements have been made from time to time that inasmuch as the conditions which justified the prices that have been exacted from the people for these great necessities now no longer exist, and that a reduction in price might reasonably be expected, no such reduction has occurred; therefore be it

Resolved by the assembly and senate concurring, That the speaker of the assembly shall appoint three members, and the president of the senate shall appoint three members, who shall act as a committee of the legislature to investigate the reasons for the continuation of the excessive price exacted of the consumer for bread, milk, eggs and similar food products, and also to investigate the relative cost of the commodities that enter into the production, manufacture, sale and disposition of bread, milk, eggs and like products, and all matters relating thereto, and to report their findings in full to the present session of the legislature not later than twenty-five days after the passage of this resolution; and be it further

Resolved, That the committee shall have power to issue subpoenas, compel the attendance of witnesses, the production of books, papers, and records, to administer oaths, take testimony and institute proceedings for contempt; to call upon and require from any officer or department of this state any information in their possession and to employ such assistants as it may deem necessary, and that the expenses incurred in such investigation not exceeding the sum of one thousand two hundred fifty dollars shall be paid equally by the assembly and senate out of their contingent funds.

The undersigned were thereupon appointed as such committee and proceeded at once to examine witnesses and gather data. Witnesses from all parts of California, representing all interests and classes, presented their views. Data was furnished by the food administration, by the University of California and by the federal government. As a result, your committee finds as follows:

Bread—The price of bread to the consumer before the war was at the rate of 5 cents for a one-pound loaf. It is now 10 cents in the greater part of California. The cost of ingredients and labor has increased in practically the same proportion and has not yet perceptibly decreased.

Milk—The price of milk to the consumer before the war was from 8 cents to 10 cents per quart. It is now 14 cents per quart in the greater part of California. The cost of feed and labor and of milk production generally has increased at a slightly greater ratio than the price of milk and has not yet perceptibly decreased.

Eggs—The price of eggs to the consumer has increased about 75 per cent as against prewar prices. The cost of feed and labor has increased in practically the same proportion and has not yet perceptibly decreased.

GENERAL CAUSES OF INCREASE.

It is trite to say that war conditions caused these increased prices. It is generally known that prices of practically all other articles increased in like proportion. The underlying causes of increased prices are higher costs of raw material and labor. No new elements other than war conditions adding to costs have been introduced. Combinations on the part of producer and distributor existing now in most cases existed before the war. What effect they have now on prices, they had in like degree then.

The prices of all three commodities have always been and are now largely fixed by world conditions. The prices paid in Chicago and New York for flour, eggs and cheese are a barometer of prices in California for bread, eggs and milk.

COMBINATIONS.

Your committee finds that the egg and milk producers have each formed organizations for the purpose of eliminating waste and stabilizing and maintaining prices. An organization of milk producers in the bay cities deals direct with an organization of milk distributors. There was much conflicting evidence as to the resulting effect on the price of milk to the consumer. While the possibilities of such a condition are dangerous, the evidence does not show that prices to the consumer have so far been materially affected by it. We base this finding on the fact that prices of milk in the bay cities do not vary greatly from those throughout California, and that the average California prices do not vary materially from those throughout the United States. (See tables C, E, G and H in the Appendix.)

HIGH COST OF DISTRIBUTION.

The cost of distribution of all three commodities is excessive and, in the case of milk, is about one-half of the price paid by the consumer. This is mainly due to the duplication and reduplication of deliveries and to other causes referred to later on in this report, where also a remedy is suggested.

VARYING BREAD PRICES.

While bread in San Francisco and in the greater part of California sells at the rate of 10 cents for a pound loaf, the price in Los Angeles is at the rate of 7½ cents for a pound loaf. The testimony is that the bakers in Los Angeles are making some money, though, they claim, not enough. Many new bakeries have started there in the last few years and none have failed or gone out of business in the last year. Apparently, in San Francisco and other points, the baker is making too much. It was shown that bread can be baked at home, including the cost of fuel, for 6½ cents per pound loaf. (See tables A, D and I in Appendix.)

SUGGESTIONS TO THE HOUSEWIFE.

It can not be too strongly recommended to housewives that, in so far as possible, they adopt the "cash and carry" plan; that they do not order small deliveries out of the usual time; that they promptly return all milk bottles and do not thoughtlessly use them for other purposes; and that food bills be promptly paid. According to evidence, a general compliance with these suggestions and with the regulations of the local and State authorities would result in better service and in reduced prices.

GENERAL DISCUSSION.

The above findings, which have been put in condensed form at the opening of this report for the convenience of the general reader, we will now enlarge upon and supplement for the benefit of those who wish a more detailed and philosophic discussion of the subject.

Your committee's investigation has been made at the most critical period of the world's history and at the moment when prices of foodstuffs are unstabilized and uncertain, due largely to the removal of federal control, and due to chaotic world conditions which reflect themselves very intimately in the cost of all foodstuffs. At this moment a proper economic distribution of foodstuffs is most vital and upon its proper solution depends a lasting world peace and the adjustment of after-the-war problems of our own government. Therefore, your committee has approached its report with a full understanding of the responsibility placed on them for a constructive and frank statement of all the facts.

The cost of living has rapidly advanced through recent years and particularly during the period of the past three years. Between January, 1916, and January, 1919, the cost of necessary foods, clothing and rent to families of moderate means has increased not less than 40 per cent. In certain cases wages have kept pace with this advance, but in many cases there has been a lagging of the wages and salaries of the great mass of people, so that today the world is confronted with the problem of taking stock of its accumulated information on the subject of food production and distribution for the purpose of providing a possibility to families

of moderate means for a continuation of decent living conditions and the maintenance of health.

Many attempts have been made by various governments of the world to decrease living costs without success, except in two respects. In our own country and in allied countries speculation in essential food commodities has been largely eliminated during the war under governmental control. In allied countries living costs were reduced in certain commodities by governmental subsidy. Great Britain, which imported 70 per cent of her food, was able thereby to control her own internal food problems by means of subsidy and to sell flour, for example, for \$10.50 per barrel at a time when that flour cost the government not less than \$12.50 per barrel, the difference being paid by the taxes of the people. (Such a system of subsidy is contrary to the principles and policies of our own country.)

Your committee desires to emphasize the fact that the problem of bread, eggs and milk and, in fact, the cost of every other food commodity, is not a local problem, but takes its color from the conditions existing in other parts of this country and abroad. For example, a proportion of the wheat used in making bread in California is brought from the Northwest, from Canada and the Middle West for mixture with wheat grown in this State. Milk may be used for consumption as whole milk, or may be canned or manufactured into butter, cheese or other milk products.

Eggs produced in California may be sold as readily on the exchange in Chicago or New York as in California. It would be a comparatively simple problem to administer the questions of distribution of food commodities in a State like California, which is more than self-supporting in most of the essential foodstuffs, were it not for the fact that the right of free and unrestricted trade between states is guaranteed by section 4 of the United States Constitution and therefore no state or local legislation can legally be enforced which would embargo the shipment of foodstuffs to other parts of this country. In brief, a complete solution of the great food problem of this country, if there be a solution, will ultimately depend upon federal supervision and control rather than upon local restrictions or state administration. The constructive steps that may be taken by the state must therefore necessarily touch on only a portion of the great problem and must point to a policy of helpfulness to producer, to those performing necessary services, as well as to the consumer, and should in no case tend to set up class war or class distinction.

Your committee does not pretend to be expert through past experience in the matter of food problems, but has endeavored to get proper information from witnesses and by a thorough inquiry reaching to many sources. We are somewhat disappointed in that many charges and statements have been made to the general public which were not substantiated on the witness stand; although many witnesses gave valuable information of a general and interesting character, one conclusion seems certain, viz, that practically all those who have had large experience in food problems as related to governmental control, as well as the evidence before the national committee on agriculture in the spring of 1917, when the Food Administration Act was considered with Mr. Hoover in relation to food price fixing, conclusively hold that government should not fix the price of food in peace time, especially perishable or near-perishable food; and whereas the war price of milk was fixed under government, by means of commissions, in many of our large Eastern cities, such price fixing was at once withdrawn when the armistice was signed. Government has a proper function of regulation and license, and doubtless has the right and duty of limitation and punishment when unjust combination is shown, but price fixing by the state or national government in peace time is economically unsound.

Your committee desires to express regret that at this time there appears to be no prospect of a continuation on the part of the State for the study of this great problem as it affects all classes of people and no machinery whereby the vast accumulation of knowledge developed during the past four years by all of the countries of the world may be made available to the people of the State. Certain agencies of the State are interested in various phases of the problem. The Department of Agriculture of the State University is charged by the State and by the federal government with the duty of increasing production and caring for the problem of the producer of foodstuffs. The State Board of Health is charged with the responsibility of policing the pure food laws of California. The Sealer of Weights and Measures gives protection against shortage in weights in foodstuffs that are of essential value. The State Market Director, aside from his specific duties relative to the marketing of fresh fish, has undertaken the supervision of certain of the organizations of producers and to assist these organizations in developing channels of distribution for their products in order to stabilize, as far as possible, the value of farm products. But there is no agency representing the State of California, viewing as a whole the problem of manufacture and distribution of foodstuffs. The State of California can not afford to leave untried any single constructive plan which may sanely aid in reducing living costs. The State of California also can not expect in a few brief days to solve problems which have confronted the entire world and for which at the present time no complete and ready solution is apparent.

In studying the three problems assigned for investigation—bread, eggs and milk—your committee has been impressed with the necessity for a wider consideration of food problems and therefore has taken the responsibility of making certain suggestions as a part of its report which bear upon other commodities as well as upon the specific questions assigned to it. Therefore, at the conclusion of the statement with regard to the present costs of bread, eggs and milk, the committee has included a series of recommendations in the hope that the State may see fit to embark upon a constructive attempt for a helpful solution of this vast and important problem.

BREAD.

The present price for bread in California appears to be 10 cents for a pound loaf of wheat bread when delivered by the baker or purchased from the retail grocer. There are certain slight variations in local communities, but the price of 10 cents per loaf received, during the war, the approval of the United States Food Administration on the basis of credit and delivery, while at the same time, the Food Administration recommended a price of 9 cents when cash was paid and the loaf carried home by the purchaser. The retailers' margin of 20 per cent on his selling price appears to be reasonable in California for a credit and delivery charge based upon the type of service demanded by the consumer. More than this amount is unjust, but a less percentage is often taken by the retailer in the sale of bread as a leader or wherever the amount of business done is such as to make possible a small margin.

There is included in the Appendix a statement of the material and labor cost entering into the wholesale production of bread. Marked advances in labor costs are a material factor in the present price of bread. The price of wheat flour is stabilized by the control of the United States government through the Food Administration. By act of Congress, dated August 10, 1917, known as the Food Control Act, Congress gave to the President power to fix the price of wheat for 1917 and Congress itself fixed the minimum price for the crop of 1918 at \$2.20 per bushel for No. 1 spring northern, and Congress also gave the President power to fix the price of the 1919 crop. Through presidential proclamation the minimum price of the 1918 crop was increased to \$2.26 per bushel at seaboard terminals, and the price of 1919 crop has been similarly fixed. Congress in July, 1918, passed an act to increase the minimum price of 1919 crop to \$2.50 per bushel, but this bill was vetoed by the President upon the earnest solicitation of the Food Administration. Therefore, the present price of wheat is not subject to speculation. The present price of wheat flour is controlled by the United States government and represents solely the price paid to the farmer plus the government's allowance to the mill for the cost of milling and the approved allowance of profit at 25 cents per barrel. The 1919 wheat crop shows a prospective yield of one billion bushels and the normal consumption in this country will consume approximately 50 per cent of this yield. The government will undertake to market between four hundred and five hundred million bushels of the 1919 wheat crop in the markets of the world outside this country. Whether this wheat is marketed at the guaranteed price to the producer or at a less price will not affect the cost of living in the United States. Discussion is now going on in Washington with reference to the price which the government shall charge to the mills in the United States for the sale of the five hundred million bushels which will be normally consumed in this country. Many persons are advocating that the government should resell its crop at a reduction of 50 per cent and therefore at a loss of approximately five hundred million dollars to the federal treasury. Your committee desires to point out that should such a policy be adopted, we may look for a reduction in the price of bread of 2 cents per pound loaf. It appears to be generally supposed that a reduction of 50 per cent in the cost of wheat will thereby cut the cost of a loaf of bread in half and reduce the pound loaf from 10 cents to 5 cents. Since, however, the present cost of flour entering the loaf of bread is approximately 4 cents, a reduction of 50 per cent in the cost of the flour will mean a reduction from 4 cents to 2 cents, with the other elements entering into the cost of bread remaining constant.

While your committee believes that bakers and retailers should be encouraged to sell bread at as low a price as possible, it is the frank conclusion of your committee that a charge of 10 cents per pound loaf delivered by the retailer can not be judged an unreasonable charge and that the main hope for a material reduction in price must come either through governmental subsidy by which the government would lose \$700,000,000 and reduce the price of a loaf of bread from 10 cents to 8 cents, or through unrestricted importation of wheat from foreign countries; but at present the main reason for sustaining the present wheat price is the act of Congress prohibiting the importation of foreign wheat in order to protect the governmental guarantee and it by no means represents a permanent load to be maintained by producers either of wheat or of other essential food commodities.

Your committee desires to point out as a matter of general interest the relative importance which the price of bread bears to other food costs. The average consumption of wheat flour in the State of California is approximately 200 pounds of

flour per year per person, a trifle over one barrel of flour for each person in the State. This represents approximately 25 per cent of the total food intake of our people and is relatively as large as the total consumption of all fresh fruits and fresh vegetables.

EGGS.

The level of prices for eggs paid by the consumer during the past year has been higher than any level heretofore reached. There have been certain contributing causes: First, the producer of eggs has labored under extreme difficulties, due to the fact that the main food used for chickens (wheat) was withdrawn by the government from use by the poultrymen. Second, the cost of milled by-products from wheat has been abnormally high, due to the great demand and the lack of milled by-products throughout this country and the shortage throughout the world. It might be observed that the poultry industry of California differs from the poultry industry in other parts of this country, as both on the Atlantic seaboard and in the middle west the raising of poultry is a by-product in general farming. There are no areas devoted solely to the production of poultry such as exist in California, at Petaluma, Santa Cruz, the San Fernando Valley and other localities. In these areas, poultry producers are largely dependent upon the mills for wheat and other feeds for the maintenance of their industry. In other sections of the country, poultry largely shift for themselves, on farms devoted mostly to other purposes and do not have to be maintained by purchased foodstuffs. The consequence is that California produces a quality of eggs of high standard which are in great demand throughout the East, but the cost of the producer changes with varying prices of feedstuffs not under the control of the producer of poultry.

The poultry industry has never been reduced to a state of stabilization either in this country or the countries of Europe. Eggs are a perishable product and their price is sensitive to the fluctuations of the law of supply and demand. The method of marketing is by means of distribution through wholesalers assembling daily in the Produce Exchange in San Francisco and Los Angeles and the price which dealers are willing to pay and which the producer demands is the reflection of the price of New York with the differential of freight marking the divergence between New York price and San Francisco price. In other words, as the demand increases on the Atlantic seaboard and prices advance, the Producers' Association and other agencies prepare to ship eggs to Eastern markets and do ship as often as the New York price appears to be more inviting than the Pacific Coast price. Your committee is convinced that advantageous changes can be made in the present economic system which would work to the benefit of both producer and consumer. A basis for improving the present system is provided in the general conditions which appear at the close of the report of the committee. At this time two general observations are made:

First, during 1918, there was a greater demand for fresh eggs than ever existed in the country, due apparently to an increased demand on the part of those whose income had been increased under war conditions. It is only fair to point out that the records show a decreasing demand for storage eggs and an increasing demand for fresh eggs, which of itself means an increased price to the consumer so long as the consumer is willing to pay the price. The price bore no speculative profit during 1918 to either wholesaler or retailer since under the Food Administration the wholesaler received a definite percentage of gross profit upon the eggs handled by him and this percentage was in the form of a sliding scale which declined with advancing prices. The retailer was confined to a stipulated margin of 5 cents to 6 cents per dozen for his handling of the eggs; therefore, the prices which were paid resulted in a return to the producer and not a speculative profit to the handler. At the present time, eggs are high, which forecasts a high price for storage eggs in the coming fall and winter, and the present cost represents a large demand for fresh eggs on the part of the consumer as well as a demand on the part of the producer for a continuation of the relatively high level of his return, because there has yet been no decline in the costs of his feedstuffs.

Second, the consumer has the opportunity of dealing strictly with the producer by using parcel post and the rural delivery. Any attempt to restrain producers from dealing directly with consumers by such avenues must be regarded as an action unfriendly to the best interests of society at large; and no contract should be entered into between producer and distributor which contains any element of trade restraint, much less of punishment of independent agencies or the cutting of prices for the purpose of driving any legitimate person from the market.

Your committee believes that in each producing section its local Chamber of Commerce or other agency might be used by which consumers could be put in touch with producers ready to make direct shipments and that in such cases producers should be glad to sell direct to the consumer for a return equal to the return which he would get in shipping to the wholesale markets in larger centers; and wherever peculiar local conditions justify, a municipal market or agency might properly be of advantage, or the combined producers might with propriety conduct such a central agency open directly to the consumer on certain days.

These suggestions apply equally to many foodstuffs.

Your committee is aware that a large number of poultry producers of California are organized into a co-operative association and that the representative of that

association sits as a member of the San Francisco Produce Exchange and that the association stores eggs and acts as a distributor of eggs to Eastern points. Particularly, in times such as these, no objection or criticism can be raised against the organization of producers' co-operative associations. On the other hand, the existence of such co-operative organizations has received the sanction of the State and the approval of the Federal Trade Commission and the recognition of Congress. The only question to be raised is whether the co-operative organization operates not only in its own best interests, but also to the best interests of the community at large. If at any time producers' co-operative organizations should, by reason of their strength, operate in such a way as to unduly increase the return to the producer at the expense of the consumer, such specific action should receive the condemnation of State as well as federal authorities. It is, therefore, particularly the duty of State officers charged with such responsibility not only to assist the producer, but to supervise and scrutinize the actions of producers' organizations in order that they shall operate to the public benefit as well as to the stabilization of the industry involved.

MILK.

The price of milk has increased approximately 40 per cent since January, 1916. The conditions leading to this increase are typified by the conditions prevailing in San Francisco. In January, 1916, milk-wagon drivers were receiving \$97.50 per month, and in January, 1919, they were receiving \$135.00 per month, and other employees of milk distributors received the same proportion of increase, which amounts in total to 40 per cent over the previous wage scale. In January, 1916, the producer was receiving 18 cents a gallon for milk and in January, 1919, was receiving 31 cents a gallon for milk. The margin of profit, therefore, to the distributor is less at the present time than before the war. The consumer is paying 14 cents a quart, or at the rate of 56 cents a gallon, for grade A pasteurized milk and the producer is receiving 31 cents. Throughout the United States, out of every dollar paid by the consumer for milk, approximately 50 cents is paid for distribution and 50 cents for production. The cost of taking the milk from the delivery depot, within the city limit, pasteurizing, bottling and delivering is therefore approximately equal to the price received by the producer. This division of the consumer's dollar is unquestionably based upon an excessive cost of delivery, which, however, can not be remedied without adequate legislation. It is admitted by distributors as well as by government investigators that the cost of distributing milk in San Francisco could be reduced at least 2 cents a quart by zoning the city and eliminating the great expense of the multitude of cross deliveries and by eliminating unnecessary pasteurizing plants.

Will "zoning" be acceptable to the people if it reduces the price?

There is more than twice the necessary pasteurizing equipment in San Francisco and undoubtedly the same condition exists in other cities. The question is, what authority has the right to say which of the unnecessary plants shall be eliminated and who shall indemnify those whose property may be thus cut out from the present system? The constitution guarantees the right of enjoyment of property unless the owner is deprived by a due process of law. Also the reduction in the cost of distribution depends upon the acceptance by the consumer of a designated delivery service under the zone plan. While this is theoretically sound, consumers have always demanded the right to purchase milk from the particular distributor in whom the consumer had confidence; and further, the reduction cost depends upon the assumption by the State or the municipality of the responsibility for the supervision of distribution of milk and for indemnifying those distributors whose services may be unnecessary.

Another large item in milk cost appears to be "bad debts," "bottle breakage," and "bottle stealing." One delivery firm testified that it charged off \$5.00 per month for "bad debts" and \$1,200 per month for "bottle breakage and stealing." Testimony shows that lower court convictions for bottle stealing is difficult to procure; and that one firm found at one time approximately 25,000 of its bottles in a junk yard, while another testified that he replevined from the hold of a ship many thousands of his bottles, all of which had been stolen. The consumer bears the burden and has his responsibility.

The present price of 31 cents per gallon paid to the producer was approved by the Federal Food Administration in September, 1917, and holds good until May, 1919, under certain conditions. The Food Administrator held that any producer of milk who so desired might have the right to ship milk into San Francisco whether he belonged to the Association of Milk Producers or not. The Food Administration also held that the association had no right to divert milk produced by members of the association from coming to San Francisco for the purpose of maintaining the present price; and, further, that if a larger supply was developed, than was needed for consumption, the price to the consumer should be proportionately decreased to such a point as would bring to San Francisco the amount necessary without surplus.

Your committee finds that the distributors of milk in San Francisco are organized as the Milk Dealers' Association and that the great majority of producers who ship milk to San Francisco are likewise organized under the Milk Producers' Association. Due to the withdrawal of the Food Administration, it is impossible to tell at the present time whether the terms of the agreement between the producers and distributors,

which was approved by the Food Administration, are being carried out. Your committee is of the opinion that some supervising agency of the State should see to it that the contract made in the interests of the public should be supervised and thoroughly policed. Should it appear that any milk is being diverted by the Producers' Association, prompt and remedial action should be taken. Should it appear that independent producers desirous of shipping milk to San Francisco are foreclosed from exercising such rights, such independent shippers should be protected and the people given the opportunity to obtain the cheaper milk. This position applies alike to San Francisco and all of the cities of California.

Your committee hopes that the new contract to be made between producers and distributors in May, may be based upon a lower price for milk than 31 cents per gallon. The abundant rainfall of the winter has produced ample feed, there should be good crops of hay at a less price and the price of feedstuffs should be lower and labor more plentiful.

Your committee believes that any attempt to lessen the price of milk by eliminating laws necessary for the supplying of pure and clean milk should be vigorously opposed.

Your committee is aware of the growing power of the co-operative organization of dairymen in the State of California and feels it necessary to call to the attention of those who are in position of responsibility that they are accountable to the public for their handling of this trust. While it is necessary to maintain a milk supply for human consumption and to return to the producer a sufficient profit to keep him in business, it is also imperative that the interests of the public be safeguarded and that no action on the part of any association of dairymen should tend to create a public distrust in their purposes and methods. Since it is admitted by all experts that it is impossible to fix upon any figure that will properly represent the cost of production of milk to all the dairymen of California, due to varying conditions and varying degrees of efficiency, it is of particular importance that the dairymen make every effort to increase the efficiency of the producer and thereby decrease the cost of the produce, and any steps that might be taken to maintain to the producer other than a reasonable profit must be regarded by the authorities of the State as an abuse of the privilege granted to organizations by State sanction and an act against the interests of society that must be severely dealt with whenever the facts are proven.

Your committee desires to call attention to the fact that the price of whole milk for delivery to centers of population is in competition with the price of butter, cheese and condensed milk, and other by-products. Therefore, the problem of dealing with milk is not a local problem confined to the dairymen and the consumer, but it is a competitive problem in which world markets compete for the output of the dairy and in which the city populations must be willing to pay a price commensurate to the price offered for milk when used in manufacturing other commodities. It is the opinion of your committee that saving can be made in the handling of milk on the farm and in its shipment to the consumer.

CONCLUSIONS.

1. This Legislature should by enactment declare the wilful destruction of foodstuffs or the hoarding of foodstuffs for the purpose of maintaining price levels to be a crime. The distribution of foods is a public right and the maintenance of unnecessary high levels operates against public welfare. The first and most important immediate reduction in food costs can be brought about through legislation making waste and hoarding criminal. It must not be understood, however, that economic storage of foodstuffs constitutes criminal hoarding. The purpose behind the storage of foodstuffs should determine whether the act in itself constitutes a crime or not. It should by legislation be made impossible for any purchaser of foodstuffs to limit the distribution of the producers' output, which is not desired for actual use by the purchaser. It is often the case that the entire crop of a producer will be purchased by a dealer under contract and the producer will be compelled to only deliver a certain portion of his output and will be restrained from distribution under any circumstances of the portion of his output unneeded or unused by the purchaser. Such action is of frequent occurrence in the handling of fresh fruits and vegetables and should not be tolerated in public interest.

2. It is time that the State should immediately recognize that the distribution of certain essential food commodities is a matter of such public importance that the right to engage in the distribution of those commodities has become a public right and therefore should be subject to State license. It should not be the object of the State to raise funds by such licensing, since such action is an indirect taxation upon the public, but the license should represent the right of the distributor to do business and the penalty should be the withdrawal of the license and distributors in the specified classes should be prohibited from doing business without a State license under heavy penalty of imprisonment and fine. Such licensing system has already been instituted in certain other states and has been upheld constitutionally by the United States Supreme Court. The distributors which should immediately be put under license by the State are: Distributors of milk, commission merchants handling fruits and vegetables, and wholesale dealers in eggs and manufacturers of bread and operators of cold storage warehouses. Other distributors may be properly added from time to time, should experience demonstrate the necessity.

The licensing of such distributors of foodstuffs should be placed under the centralized control of the State authority, experienced and competent in handling of great industrial problems. Such a body is the State public utility commission, commonly known as the Railroad Commission, who now handle public utilities. The line of demarkation between public utilities, such as a water company or a railroad, and the distributor of food does not lie in the use made by the public of the commodity handled by the distributor, but the demarkation lies in the fact that a water company or a power company is subject to a franchise which is the expression of the willingness of the State for the distributor of water or power or for the railroad to do business. No franchise at present exists with regard to the distributor of food and the field of food distribution is open to anyone who may want to participate, without regard to the qualifications of the distributor or the ability of the distributor to render a necessary service to the public. Recognition of the licensing principle with regard to food distribution represents the desire of the State to recognize such licensing as an equivalent of a franchise to do public business and this is therefore the basis of the right of the public to supervise the local distribution of foodstuffs and it is the first and most important step toward the new economic system. After the granting of license by the public utilities commission, the commission should have the power, in conference with the licensees, to determine certain broad rules and regulations for the operation of the business of the distributor in the interests of the public.

3. Wilful gambling in foodstuffs should be as far as possible eliminated through restrictions prohibiting the sale of foodstuffs by dealers to dealers in the same class. In general when food is sold, it should go to the necessary agent next in line toward the consumer. It should be made impossible for wholesale dealers in eggs and other products to buy and sell such commodities among themselves, thereby pyramiding the price, without getting the food any further toward the consumer.

It would be obviously impossible at this session of the Legislature to pass legislation providing explicit powers in detail for the creation of a revised economic system of food distribution, but it is earnestly believed that the introduction of a licensing system with a power to the public utility commission to summarily withdraw the right of distributors to participate in the business, when such distributors do not render necessary services or comply with existing laws, would be a forward movement. The commission as a representative of the State might sit with both producers and distributors, representing the interests of the people to provide a constructive program.

The above report is concurred in by the entire committee, excepting that Committee-man Harris did not participate in the specific findings as to milk.

NOTE.—The above data is based on a ten-dozen-egg hen and on feed prices as indicated. Only "Extra" market quotations have been used and all eggs laid have been figured as extras. As a matter of fact, from 20% to 30% of the eggs laid per hen per year are not of extra grade and sell for less.

DISTRIBUTION OF COST FACTORS ENTERING INTO THE PRODUCTION OF EGGS.

Average annual feed charge per dozen eggs	66 2/3 %	14.4c
Average annual interest charge per dozen eggs	6 %	1.3c
Average annual taxes and insurance charge	1 %	.2c

Average annual replacement of stock (difference in meat value of old and cost of rearing young stock) ; per dozen eggs	7 1/2 %	1.6c
Average annual repair (depreciation, etc.) per dozen eggs	1 %	1.5c
Average annual labor (in excess of owner's) per dozen eggs	10 %	2.2c
Average annual gross cost of producing a dozen eggs	100 %	21.6c (1915)

The data given above is, to the best of our knowledge and judgment, a reasonable representation of an average of conditions existing in the various poultry centers of California. Variations in cost and sales price factors, especially in specific places, will result in some variations up and down from the figures given above, but we believe the data here given is as close to actual average conditions over the State as it is possible to compile.

During the years 1914 to 1918, inclusive, the receipts of eggs in San Francisco were, according to Pacific Dairy Review, as follows:

1914	619,525 cases
1915	623,816 cases
1916	572,440 cases
1917	714,991 cases
1918	688,966 cases

How many of these eggs were produced in California and how many were brought into the State, our available data does not show.

During the eight months, however, from July 9, 1918, to March 11, 1919, inclusive, 32,186 cases of California eggs were received in San Francisco, 13,196 cases of which went into cold storage. In the same period 13,831 cases, or about 34 cars, of Eastern eggs were received in San Francisco from the Middle West, and 5,102 cases were put in cold storage.

We do not have any record of the movement of eggs in and out of Los Angeles or of the number of cars of eggs shipped out of California, so that we can not say definitely at present whether the State has passed the point where supply exceeds demand and become an egg exporting State or not. In the past more eggs were imported than exported.

COLD STORAGE PROFITS.

Mr. Charles Brand, Chief United States Bureau of Markets, in a report issued to the trade under date of March 11, 1918, states that for the United States as a whole, "the cold storage results of the three years (1916, 1917, 1918) for which the Bureau of Markets has accumulated data and issued reports, show a net profit of approximately two and a half million dollars on an investment of one hundred and forty-eight millions, or approximately one and two-thirds per cent, making no allowance for interest on investment."

INTRODUCTION OF SENATE CONCURRENT RESOLUTION—(OUT OF ORDER).

By consent of the Senate, the following resolution was offered out of the regular order:

By Senator Scott: Senate Concurrent Resolution No. 19—Relative to the leasing of land to persons ineligible to citizenship.

Resolution referred to Committee on Federal Relations.

MESSAGE FROM THE GOVERNOR—(OUT OF ORDER).

On motion of Senator Breed, the following message from the Governor was taken up and read out of the regular order:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

To the Senate and Assembly of the State of California.

A rapidly developing financial condition in our State affairs impels me to issue this solemn warning against the granting of appropriations jeopardizing the financial integrity of the State. With a full appreciation of the meritorious character of the many demands made upon the State treasury, I nevertheless feel it time to call attention to the fact that there is a limit to the State's ability to pay, and that in this juncture of affairs it would be extremely dangerous to permit the surplus in the State treasury to go beneath the figure deemed a minimum of safety.

At the present time the financial condition of the State is good, notwithstanding extraordinary drafts made upon it during the last two years because of war conditions. The fiscal officers of the State estimate that there is in the State treasury a present surplus of \$4,219,000. With this surplus in mind a budget was prepared and has been presented to the present Legislature covering all the normal activities of the State, amounting to the sum of \$47,589,153.66 for the coming biennial period. The estimated revenues for the same period are \$47,969,490, leaving an estimated balance of \$389,336.34. The surplus would thus increase to \$4,608,336.34.

This would be the maximum sum available over and above budgeted demands. But financial wisdom and experience has shown that \$2,000,000 is the lowest safe point to which the surplus of the treasury should go, and whenever the indicated surplus drops below \$2,000,000 we reach the danger point.

It is proper to state that in the budget proposed a normal increase is allowed for the support of those institutions caring for the war veterans, the blind, the feeble-minded, the insane and the criminal. All our State educational institutions from the State university down to the elementary schools were granted a normal increase. All these increases were made necessary by the abnormal conditions of the last few years.

At the present time there appears a disposition to go far beyond these normal increases. With no desire to reflect in the least upon the inherent merit of the bills carrying additional appropriations, I nevertheless feel it my duty to call attention to the fact that such additional appropriations must be limited by the amount of funds properly available.

At the present time an increase in elementary schools support from \$15 per capita, as budgeted, to \$17.50 has been recommended by committees of both Senate and Assembly. This item alone would mean an additional expenditure of approximately \$2,000,000 over the budgeted allowance for the coming biennial period.

In addition an increase has been recommended by two legislative committees for the support of orphans and half orphans from \$6.25 and \$8.33 per capita, now given by the State, to \$12.50 per capita. It was contemplated to increase the budget allowance by raising the per capita rate to \$10. This increase of itself involved an additional cost of nearly \$1,000,000. But the suggestion is now made to impose on top of this generous measure a further cost of about \$450,000 by raising the contemplated per capita allowance of \$10 to \$12.50. If this last raise is made it would mean a total increase for orphans aid of \$1,370,000 over the present allowance.

Suffice it to say, however, that the two items to which attention is called aggregate \$3,370,000. If these bills become law it would leave a surplus of but \$1,228,336.34. This is far below the danger mark and as before stated, does not include many other unbudgeted appropriations of great merit.

To avoid all misunderstandings, I desire to reiterate that nothing can be said against the inherent merits of these bills. I am heartily in favor of increasing to the limit of financial wisdom and safety, the allowance made for orphans and for pay of teachers.

No state in the Union is more generous in distributing its state revenues to counties and municipalities than is California, and but few equal her in this respect. Most of the states distribute a very small amount to the support of public schools, leaving this burden to their counties and municipalities to bear. Likewise, there are but five or six states in the Union that contribute anything out of their state funds to the support

of orphans, half orphans or abandoned children. They also leave this with the counties and municipalities. No state in the Union exceeds the present allowance made by California to the dependent children, and no state in the Union equals the allowance of \$10 per capita.

The State of California, at the present time, bears the entire expense of caring for the delinquent, the feeble-minded, the insane, and the criminals of all the counties. The State likewise has borne a generous share of the cost of supporting the dependent children. The State is very willing to pay half of such expense and merely asks that the counties and cities and towns pay at least the other half. There is but little question as to the amount required for the support of the dependent children. There can be no question as to the obligation of the public to support them, but it does seem to me that the State of California, whose income is limited, proposes to deal very generously in this matter.

It is impracticable, perhaps legally impossible, at this time to think of raising the tax rate to meet this condition. Grave legal questions and serious legal doubts must arise if at this late date, without careful study and without fair and equitable apportionment of tax burdens, the rate is attempted to be hastily or arbitrarily raised.

In addressing this message to you, I trust you will believe I appreciate fully the fundamental principle that all revenue measures are properly matters of legislative origin. Nevertheless, when they come up for executive action, the legal duty devolves upon me also of protecting the financial revenues of the State against excessive drains. With a view of co-operating fully with you in the granting of all proper and financially possible appropriations and at the same time avoiding the perils which threaten and which I feel can be obviated by circumspection, I urge again the necessity of making our contemplated State disbursements measure to the standards of safety.

Respectfully submitted.

WM. D. STEPHENS, Governor.

April 10, 1919.

Message referred to Committee on Finance.

THIRD READING OF SENATE BILLS—(RESUMED).

SENATE JOINT RESOLUTION No. 33.

Relative to changing the name of Weimar post office in Placer County.

WHEREAS, In the county of Placer, this state, there is a post office called "Weimar"; and

WHEREAS, The residents of the district served by such post office have contributed their share of men and money in the struggle through which we have just gone; and

WHEREAS, The bonds heretofore existing between the United States and the countries with which she has been allied have been greatly strengthened by the events of the recent war; and

WHEREAS, There are twelve counties of the state now engaged in the construction of a tuberculosis hospital at Weimar, toward the construction and maintenance of which the people of the State of California will be called upon to contribute millions of dollars; and

WHEREAS, The change of the name of said post office from "Weimar" to "Argonne" would, in view of the facts hereinabove set forth, be beneficial to the people of said district; and

WHEREAS, Such change would be a fitting tribute to the heroism of the men of both this country and of the countries joined with the United States in the great war, and an expression of the friendly feeling of the people of said district for the people of the Argonne district; now, therefore, be it

Resolved by the senate and the assembly, jointly, That the legislature of the State of California hereby memorializes the postmaster general of the United States to change the name of the post office "Weimar" to "Argonne"; and be it further

Resolved, That the secretary of the senate be and he is hereby instructed to forward a copy of these resolutions to the postmaster general of the United States.

Resolution read.

SENATE CONCURRENT RESOLUTION NO. 17.

Relative to special legislative committee for investigation of the finances of the state.

WHEREAS, The forty-third session of the California legislature finds the state facing a critical financial situation, due to the fact that revenues are insufficient to meet the legitimate demands arising especially from the educational and humanitarian departments of the commonwealth; and

WHEREAS, Appropriations absolutely essential to the support of state institutions as shown by the report of the budget board, together with the increases vital to the life of the elementary schools and the proper sustenance of the orphans thrown upon the charity of the state government, are of such proportions as to impair the surplus account of the state treasury to the extent that the amount carried in such fund as an insurance against catastrophes or other emergencies will be so small as to be dangerous; therefore, be it

Resolved, by the senate, the assembly concurring, That a legislative committee consisting of two members of the senate to be named by the president of the senate, and two members of the assembly to be named by the speaker of the assembly, be appointed to investigate during the coming two years, and to report to the legislature in the month of January, 1921, with recommendations as to action, on matters governing the subject of revenue and taxation in the State of California broadly outlined as follows, and on such additional lines as it may deem wise, as a result of its investigations:

1. As to increasing revenue as derived from present sources of taxation, having in mind the urgent need of equitable methods so that the burden of taxation will fall according to the benefits received, and particularly as to the burden between general property and corporation property.

2. The uncovering of sources of revenue now taxable but escaping taxation, if any there be.

3. As to the taxation of general property (a) as needed to provide further and necessary revenue for the support of the state government, and (b) the wisdom of such taxation aside from a strictly revenue point of view, in order that the people may feel the burden of the cost of state government directly.

4. As to the burden of taxation under our present state system as between small corporations and large corporations; also the double taxation of corporations under the existing system.

5. Recommendations as to new sources of revenue.

This legislative committee shall be empowered to call upon all departments of the state government for co-operation and assistance, particularly the state board of equalization, the state board of control and the state controller.

The board of equalization is charged particularly with the duty of collecting data as to the ratio of assessed to true value under the ad valorem system in vogue in the counties, and such other data and information as the legislative committee may direct it to secure for the use of said committee in determining the burden of taxation as between general property and corporation property, and such other purposes as it may have in mind.

Members of the legislative committee shall receive no compensation for their services but shall receive actual and necessary traveling expenses.

The committee shall hold hearings in Sacramento, San Francisco, Los Angeles and such other places as it may deem necessary in order to fully carry out its investigations.

For the purposes of enabling the legislative committee to perform the task assigned to it by this resolution there is set aside from the contingent fund of the senate one thousand five hundred dollars, and from the contingent fund of the assembly one thousand five hundred dollars; *provided*, that only so much of said funds shall be expended, as is necessary, in equal amounts from said funds.

SAN FRANCISCO, April 3, 1919.

Honorable C. C. Young,

Lieutenant Governor,

Sacramento, California.

DEAR SIR:—In the matter of Assembly Bill No. 965 now pending in the Legislature of the State of California:

At the regular meeting of the Haight and Ashbury Improvement Association, largely attended, a resolution was unanimously and enthusiastically adopted reading in part as follows: "It is fervently hoped that Assembly Bill No. 965 become a law and relieve the water rate payers from the great injustice of being compelled to pay for water that they cannot use."

The Haight and Ashbury Improvement Association respectfully petitions the Legislature of the State of California, now in session at Sacramento, to pass Assembly Bill No. 965, introduced by Mr. McColgan, at the very earliest possible date, in order that the injustice to consumers, of water in particular, of being compelled to pay for the service of a meter, for this absolute necessity can not be any longer maintained in the State of California.

That copies of this petition be sent to the Legislature; to His Excellency Wm. D. Stephens, Governor; to Honorable C. C. Young, Lieutenant Governor; to Honorable Henry W. Wright, Speaker of the Assembly; to the members of the Legislature from the city and county of San Francisco, with the request to place this petition upon the respective Journals of the Senate and Assembly, and with the further request for their support of said Assembly Bill No. 965, it being considered a very sound, meritorious and necessary piece of legislation.

Respectfully submitted,

HAIGHT AND ASHBURY IMPROVEMENT ASSOCIATION.

COMMUNICATION.

The following communication was read, and ordered printed in the Journal:

April 11, 1919.

To the Senate of the State of California.

GENTLEMEN: I learn that the President has sent a cablegram expressing his desire that no action shall be taken on the subject of Japanese legislation at this time.

I feel that our Peace Commissioners at Paris are better prepared than are we to consider a matter of this character, and as the consequences may be of such a far-reaching character, it would seem unwise and unpatriotic to press the matter further in its present form.

I therefore respectfully request permission to withdraw my request to introduce a bill concerning the so-called "picture brides", which I have heretofore asked permission to introduce. I had hoped to make this application in person, but am at present confined to my bed by illness.

Very truly yours,

W. E. DUNCAN, JR.
By O. D.

At the time appointed the board shall open the proposals, and award the purchase of the bonds to the highest responsible bidder; *provided, however*, that they may reject all bids. Said board shall in no event sell any of the said bonds for less than ninety per cent of the par value thereof.

Resolution of intention must be declared, and notice given, and the sale conducted in the manner prescribed in section twenty-nine of this act for the sale of original bonds. Said bonds shall in no event be sold for less than ninety per cent of their par value including accrued interest. All moneys realized from the sale of bonds, issued under the provisions of this section, shall be paid into the hands of the said treasurer, and by him kept in a separate fund, known as the funding fund, and shall be applied exclusively to the payment of bonds, coupons, or other evidence of indebtedness of the district outstanding at the time of filing of the said petition, and described therein.

SEC. 6. Section thirty-nine of said act is hereby amended to read as follows:

The petition shall describe the boundaries of said parcel or tract of land, and shall also describe the boundaries of the several parcels owned by the petitioners; if the petitioners be the owners, respectively, of distinct parcels, but such description need not be more particular than they are required to be when such lands are entered by the county assessor in the assessment book. At such election the ballots shall contain the words "For disincorporation: Yes" and "For disincorporation: No." Said election shall be held in all respects in the same manner as regular elections of directors of the district. If it appears that a majority of the electors voting at said election have voted in favor of disincorporation, the directors shall cause such fact to be entered upon their minutes, and shall forward a copy of such entry to the board of supervisors of the county in which the district was formed, who shall file the same with their clerk, and from the date of such filing, said district shall be deemed disincorporated; *provided*, that if at the time of the dissolution or disincorporation of said district, there be any outstanding bonded or other indebtedness of such district, then taxes for the payment of such bonded or other indebtedness shall be levied and collected the same as if such district had not been dissolved and disincorporated, but for all other purposes such district shall be deemed dissolved and disincorporated from the time of the filing of said copy of such entry by said board of supervisors. Whenever any district shall have been disincorporated, as herein provided, the balance of the money of said district shall be distributed to the assessment payers in said district upon the last assessment roll in the proportion in which each has contributed to the total amount of said assessment.

GENTLEMEN: At a meeting of the council of the city of Oakland held on above date, on motion of Commissioner W. H. Edwards, duly carried, I was directed to notify you that the council commended the action of the Legislature in denying to public service corporations the arbitrary right to exact a service charge on gas, electric and water meters.

Yours truly,

L. W. CUMMINGS, City Clerk.
By F. C. MERRITT, Deputy.

Also:

WHEREAS, We are credibly informed that certain representatives to the Peace Conference are demanding a covenant for "racial equality," which might put an obligation on the United States of America to grant Oriental countries free immigration, naturalization, the elective franchise, the privilege to own agricultural and other lands and the right of intermarriage; and

WHEREAS, The experience of California with Oriental immigration has shown that these privileges can not be granted without imperiling the welfare of the white population and ultimately of American civilization; and

WHEREAS, We believe in the well-founded American principle that the United States should have a free hand in dealing with its immigration problem; now, therefore, be it

Resolved, By the city council of the city of Los Angeles that the American delegation to the Peace Conference be requested to oppose any policy that will interfere with the right of the several nations for themselves to control the subject of immigration and exercise such discretion as they may see fit to preserve their population, racial development and domestic institutions, to the end that agitation and consequent irritation be prevented; and be it further

Resolved, That the city clerk be directed to forward copies of this resolution to the Secretary of State at Washington, to the President of the Senate, and to the Speaker of the House of Representatives, to the Governor of the State of California, and to both houses of the California State Legislature, with a request that it be cable to the American delegation to the Peace Conference.

SENATE CONSTITUTIONAL AMENDMENT No. 19.

A resolution to propose to the people of the State of California an amendment to the constitution of the State of California by amending section twenty-two of article four, relating to the expenditure of public money in state aid.

The legislature of the State of California, at its forty-third regular session, commencing the sixth day of January, 1919, two-thirds of all the members elected to each of the two houses of said legislature voting in favor thereof, hereby proposes that section twenty-two of article four of the constitution of the State of California be amended to read as follows:

Sec. 22. No money shall be drawn from the treasury but in consequence of appropriation made by law, and upon warrants duly drawn thereon by the controller; and no money shall ever be appropriated or drawn from the state treasury for the purpose or benefit of any corporation, association, asylum, hospital, or any other institution not under the exclusive management and control of the state as a state institution, nor shall any grant or donation of property ever be made thereto by the state; *provided*, that notwithstanding anything contained in this or any other section of the constitution, the legislature shall have the power to grant aid to the institutions conducted for the support and maintenance of minor orphans, or half-orphans, or abandoned children, or children of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, or aged persons in indigent circumstances—such aid to be granted by a uniform rule, and proportioned to the number of inmates of such respective institutions; *provided, further*, that the state shall have at any time the right to inquire into the management of such institutions; *provided, further*, that whenever any county, or city and county, or city, or town, shall provide for the support of minor orphans, or half-orphans, or abandoned children, or children of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he cannot pursue a gainful occupation, or aged persons in indigent circumstances, such county, city and county, city, or town shall be entitled to receive the same pro rata appropriations as may be granted to such institutions under church, or other control. An accurate statement of the receipts and expenditures of public moneys shall be

attached to and published with the laws at every regular session of the legislature; *provided, however*, that for the purpose of raising five million dollars, to be used in establishing, maintaining, and supporting in the city and county of San Francisco, State of California, an exposition in commemoration of the completion of the Panama canal, to be known as the Panama-Pacific international exposition, the state board of equalization shall, for the fiscal year beginning July 1, 1911, and for each fiscal year thereafter, to and including the fiscal year beginning July 1, 1914, fix, establish, and levy such an ad valorem rate of taxation, as when levied upon all the taxable property in the state, after making due allowance for delinquency, shall produce for each of such fiscal years a sum of one million two hundred fifty thousand dollars. The said taxes shall be levied, assessed and collected upon every kind and character of property in the State of California not exempt from taxation under the law, and subject to taxation on the first day of July, 1910, and in the same manner, and by the same method, as other state taxes were levied, assessed, and collected under the law, as the same existed on the first day of July, 1910. The state board of equalization shall each year, at the time it determines the amount of revenue required for other state purposes, determine, fix, and include the rate of tax necessary to raise the revenue herein provided for.

There is hereby created in the state treasury a fund to be known as the Panama-Pacific international exposition fund, and all moneys collected pursuant to this provision, after deducting the proportionate share of the expense for the collection of the same, shall be paid into the state treasury, and credited to such fund. All moneys so paid into such fund are hereby appropriated, without reference to fiscal years, for the use, establishment, maintenance and support of said Panama-Pacific international exposition. No tax, license fee, or charge of any kind or character shall ever be levied or assessed or charged against any property of said Panama-Pacific international exposition, or against any property used as exhibit therein, while being used or exhibited in connection therewith.

There is hereby created a commission to be known as the Panama-Pacific international exposition commission of the State of California, which shall consist of the governor of said state and four other members to be appointed by the governor by and with the advice and consent of the senate of said state. The governor shall have the power to fill all vacancies occurring at any time in said commission. The members of said commission shall receive no compensation and shall hold office until such exposition shall have been closed and its affairs settled. Said four members of said commission shall be selected from different sections of the state, and the appointment thereof shall be made by the governor of the state during the month of February, 1911. The commission hereby created shall have the exclusive charge and control of all moneys paid into the Panama-Pacific international exposition fund; and *provided, further*, that the legislature shall pass all laws necessary to carry out the provisions of this act, including the times and the manner in which and the terms and conditions upon which moneys shall be drawn from the state treasury by said commission; where contracts and vouchers shall be filed; to whom and how often reports shall be made; what disposition shall be made of any sum left unexpended or received from the sale of any property or buildings purchased or constructed by said commission for the use of said exposition, or of any disposition of any building or improvement constructed by said commission out of said fund, and to provide for the transfer to the general fund of the State of California, of any portion of said Panama-Pacific international exposition fund unused.

The commission herein created is authorized and directed to make such proper contract with the Panama-Pacific International Exposition Company, a corporation organized under the laws of the State of California on the twenty-second day of March, 1910, as will entitle the State of California to share proportionately with the contributors to the said Panama-Pacific international exposition in the returns from the holding of said exposition at the city and county of San Francisco.

Every city, county, city and county, or group of counties which establishes and maintains a tuberculosis ward or hospital shall receive from the state the sum of three dollars per week for each person suffering from tuberculosis, cared for therein at public expense who is unable to pay for his support and who has no relative legally liable and financially able to pay for his support and who has been a bona fide resident of the state for one year; *provided*, that the city, county, city and county, or group of counties shall not become entitled to receive such state aid unless the tuberculosis ward or hospital conforms to the regulations of and is approved by the state bureau of tuberculosis. BILLS AND RESOLUTIONS.

Scope of Word "Bill."

4. Whenever the word "bill" is used in these rules it shall include constitutional amendments, joint and concurrent resolutions.

Joint and Concurrent Resolutions.

5. Joint resolutions are those which relate to matters connected with the federal government. All other resolutions relating to matters to be treated by both Houses of the Legislature are concurrent resolutions.

Resolutions Treated as Bills.

6. Joint resolutions, concurrent resolutions and constitutional amendments shall be treated in all respects as bills; except that they shall be read but one time in each House, and that they shall not be deemed bills within the meaning of section 2 of article IV of the constitution and shall not be referred to the Committee on Introduction of Bills, and shall not require a vote to authorize their introduction. As in the case of bills, they shall be engrossed in the House in which they originate before being voted upon.

PREPARATION AND INTRODUCTION OF BILLS.

Title of Bill.

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections.

8. Bills amending more than one section of existing laws shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Changes From Existing Laws to Be Marked by Author.

9. In case of a bill amending a code section, or general law, all omissions must be shown by the insertion of heavy parentheses or brackets without including the omitted matter; all additions must be shown by underlining the new matter. When printed, the new matter so underlined shall be enclosed in heavy brackets in the printed bill and also heavy brackets shall be retained to show omissions.

Committee on Revision and Printing to Examine Bills When Introduced.

10. Unless otherwise ordered by the House in which the bill was introduced, all bills before being printed shall be immediately sent to the Committee on Revision and Printing, which shall examine the bill, with the aid of the Legislative Counsel Bureau. The committee, by and with the written assent of the author filed with it, shall have authority to correct any clerical error such as in orthography, adding or correcting the enacting clause, mistakes in numbering sections and references thereto, errors in grammar, phraseology, or in the form of the bill: *provided*, that no bill which bears the stamp of the Legislative Counsel Bureau showing that before introduction it has been examined as to form, shall be sent to the Committee on Revision and Printing.

NOTE.—The submission of bill copy to Legislative Counsel Bureau for approval of form before introduction will expedite its course.

Bills Introduced to Indicate Changes in Existing Laws.

11. The Committee on Revision and Printing shall see to it that Rules 7 and 9 of these Joint Rules are observed by the author, and that the bill shall not be sent to the printer until the provisions of these rules have been carried out.

Reports of Committee on Revision and Printing.

12. The Committee on Revision and Printing shall return to the Secretary of the Senate or Chief Clerk of the Assembly all bills in the order in which they were sent to it, but shall not retain any bill for longer than three legislative days, unless otherwise ordered.

Endorsement of Date of Introduction.

13. Bills introduced in either House shall be endorsed with the date of introduction.

PRINTING AND DISTRIBUTION OF BILLS.

Manner of Printing Bills, Etc.

14. The State Printer shall observe the following directions in printing all bills, constitutional amendments, joint and concurrent resolutions:

(a) The body of such bills and resolutions shall be printed in solid unspaced form so that the same type shall be used both before and after enrollment.

(b) All titles of bills, resolutions, etc., shall be set in italics, statute form, and the length of the lines used in the bills shall not exceed that of the body of the bill.

(c) The lines of all printed bills shall be numbered by page and not by sections, and amendments shall be identified by reference to title, page and line only; *provided, however*, that concurrent resolutions approving city or county or city and county charters or amendments thereto may be set in smaller type and without line numbers.

(d) Enrolled bills may be enclosed in stock cover.

Printing of Amendments.

15. All bills amended by either House shall be immediately reprinted; in the case new matter is added by the amendments, such new matter shall be enclosed in heavy parentheses in the printed bill, and in the case of matter being omitted, the omission shall also be indicated by heavy parentheses. When a bill is amended in either House, the first or previous markings, except that showing change from code provision or former law, shall be omitted. When a bill amendatory of a code section is engrossed, all figures or symbols shall be removed.

Distribution of Bills During Constitutional Recess.

16. All requests for mailing or distribution by the members shall be filed with the Secretary of the Senate or Chief Clerk of the Assembly, who shall compile the same, with the elimination of duplication, as a general mailing list. The distribution of bills, constitutional amendments, joint and concurrent resolutions shall be systematized as follows: Members' desks and legislative officers' files 150 full sets; to authors 50 copies of their own bills; accredited newspaper representatives 25; to public and law libraries, newspapers, county officials, and other civic, commercial, fraternal or industrial organizations as the Secretary of the Senate and Chief Clerk of the Assembly may compile from the recommendations of the members of both Houses, 1,200 copies; to State officers, State Library and Secretary of State, 200 copies; to legislative committees, bill room files and public requests—confined to single copies of bills designated, 1,000 copies. Resolved by the senate, the assembly concurring, That the legislature of the State of California at its regular session, commencing on the sixth day of January, 1919, two-thirds of the members elected to each of the two houses of the said legislature voting therefor, hereby proposes to the people of the State of California that the constitution of said state be amended by adding to article sixteen thereof a new section to be numbered two, reading as follows:

SEC. 2. Immediately upon the adoption of this section the state treasurer shall prepare forty thousand suitable bonds of the State of California in the denomination of one thousand dollars each, to be numbered from one to forty thousand inclusive, to bear a date not later than thirty days after said adoption and to bear interest at the rate of four and one-half per cent per annum from the date of said bonds, said interest to be payable on the third day of January and the third day of July of each and every year after the sale of said bonds, and said bonds to become due and payable in annual parcels of one thousand bonds, commencing July 3, 1926, and ending July 3, 1965.

The provisions of the act of the legislature approved May 20, 1915, known as the "state highways act of 1915," relative to the signing, countersigning, endorsing and sealing of the bonds therein provided for and the interest coupons thereon, the place and method of payment of principal and interest thereon, the procedure for initiating, advertising and holding sales thereof, and the performance by the several state boards and officers of their respective duties in connection therewith as therein stated, and all other provisions, terms and conditions in said last-named act relating to the bonds therein mentioned, so far as the same shall be pertinent, shall be applicable to the preparation, issuance and sale of the bonds herein provided for, as herein contemplated.

Funds corresponding to those provided for in said act are hereby created, and payments into and out of the same shall be made as in said act provided, said funds to be designated respectively, "third state highway fund," "third state highway interest and sinking fund," "third state highway revolving fund," and "third state highway sinking fund"; and the state treasurer shall on the first day of January, 1920, and on the first day of each July and the first day of each January thereafter transfer from the general fund to the "third state highway interest and sinking fund," and on the first day of July, 1926, and on the first day of July of each year thereafter, from the general fund to the "third state highway sinking fund," the required moneys as provided in section five of said act for the purposes therein stated but as applicable only to the bonds herein provided for and the interest thereon.

The moneys in said "third state highway fund" shall be used by the state department of engineering for the acquisition of rights of way for and the acquisition, construction and improvement of uncompleted portions of the system of state highways prescribed by the act of the legislature approved May 22, 1909, known as the "state highways act," and the act of the legislature approved May 20, 1915, and known as the "state highways act of 1915," and certain extensions thereof described in said last-named act, and also for the acquisition of the rights of way for and the acquisition,

All provisions of this section shall be self-executing and shall not require any legislative action in furtherance thereof, but this shall not prevent such legislative action; and all expenses that shall be incurred by the state treasurer in the preparation of bonds herein provided for and in the advertising and sale thereof and all expenses incurred by any officer in reference thereto shall be paid from the general fund of the state. EXPLANATIONS OF VOTES.

Senators Carr, W. J., and Lyon asked for and were granted unanimous consent to have the following explanations of their votes on Senate Bill No. 735 printed in the Journal:

This bill presents definitely to the Legislature for the first time a broad question of policy, to wit, whether or not the State of California should extend financial aid to the great problem of flood control. The adoption of this policy by the passage of

this bill will commit the State to extremely heavy financial obligations. I venture to say that \$25,000,000 would be a very conservative estimate of the amount which the State will be called upon to appropriate in the next ten or fifteen years for that purpose. It is obvious that if money is appropriated for the Sacramento Flood Control Project, similar financial assistance must in fairness be made to the Los Angeles project, and to other flood control projects in the State as they take form. The outcome, I fear, will be the forcing of an ad valorem property tax for State purposes. Without either questioning the merits of the Sacramento project, or the general propriety of the State aiding in flood control by appropriations, I am satisfied that at this time it is unwise for the State to commit itself to financial obligations of the magnitude involved.

Particularly do I feel this way because this proposal is submitted to the Legislature in the closing days of the session, with no adequate opportunity for investigation or consideration, and at best our action is hurried and without the mature deliberation to which the people of the State are entitled before taking any action which will involve the finances of the State to the extent this will.

As soon as this matter came before the Finance Committee, I introduced a bill making a similar appropriation for the Los Angeles Flood Control Project. This project, so far as my information goes, is the only other worked-out flood control project in the State. The Los Angeles Flood Control District, comprising the greater part of Los Angeles County and created by a special act of the Legislature, has bonded itself for approximately \$4,500,000, and with the proceeds of these bonds is now starting on the work of flood control. This amount will but start the work contemplated.

The question of the policy of entering into this new activity was presented definitely to the Finance Committee at its meeting on Thursday night by a motion to report out the Sacramento bill, carrying an appropriation of \$3,000,000, stretched over a period of ten years, and the Los Angeles bill, carrying \$2,000,000, stretched over a like period, the two proposals being included in the same motion. Roll was called on the motion and Senators Breed, Brown, Canepa, Crowley, Evans, Ingram, Jones, Nealon, Rigdon, Rush and Scott voted to report out the two bills. Senators Benson, Gates, King and Slater voted with me against reporting the bills out, and consequently launching the State into this new field.

In voting against this bill I am voting against the policy which its adoption inevitably carries with it. If this body by its vote on this measure desires to favor this policy, then I shall present for its consideration the bill which I introduced, carrying a large appropriation under similar conditions for the Los Angeles project. If, however, this body rejects the policy, as I hope it will, I shall be extremely happy not to present the bill appropriating money for the Los Angeles project.

In what I have said I have dealt entirely with the question of extending aid to flood control. Furthermore, it should be pointed out that it is an unsafe financial policy to mortgage the future revenues of the State in the manner contemplated by this bill. If such a policy is established it will plague us for a generation to come.

W. J. CARR.

For the reasons above stated I voted against the Senate bill hereinabove referred to, and I do hereby concur in the explanation above given and request that it be printed as my explanation of my vote.

CHARLES W. LYON.

SENATOR EVANS IN THE CHAIR.

At four o'clock and twenty-five minutes p.m., Senator Evans of the Thirty-ninth District was called to the chair.

Senate Constitutional Amendment No. 22 ordered transmitted to the Assembly.

SENATE CONSTITUTIONAL AMENDMENT No. 5.

A resolution proposing to the people of the State of California to amend section one of article four of the constitution of the State of California, relating to the legislative power of the state, and forbidding submission to the people under the initiative provisions of the constitution of measures relating to the assessment or collection of taxes unless petitions requesting such submission are signed by twenty-five per cent of the number of votes cast for governor at the last preceding gubernatorial election, and petitions relating to other subjects by eight per cent of the number of such votes.

The legislature of the State of California, at its regular session commencing on the sixth day of January, 1919, two-thirds of the members elected to each of the two houses of said legislature voting in favor thereof, hereby proposes to amend the constitution of the State of California amending section one of article four thereof so as to read as follows:

Section 1. The legislative power of the state shall be vested in a senate and assembly which shall be designated "The Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the constitution, and to adopt or reject the same, at the polls independent of the legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the legislature. The enacting clause of every law shall be "The people of the State of California do enact as follows:"

The first power reserved to the people shall be known as the initiative. Upon the presentation to the secretary of state of a petition certified as herein provided to have been signed by qualified electors, equal in number to eight per cent of all the votes cast for all candidates for governor at the last preceding general election, at which a governor was elected, proposing a law or amendment to the constitution, set forth in full in said petition, the secretary of state shall submit the said proposed law or amendment to the constitution to the electors at the next succeeding general election occurring subsequent to ninety days after the presentation aforesaid of said petition, or at any special election called by the governor in his discretion, prior to such general election; *provided, however*, that if said proposed law or amendment to the constitution relates to the assessment or collection of taxes, or provides for the modification or repeal of this proviso, it shall not be submitted to the electors under the provisions of this section, unless the petition proposing it is certified as herein provided to have been signed by qualified electors, equal in number to twenty-five per cent of all of the votes cast for all candidates for governor at the last preceding general election at which a governor was elected. All initiative petitions prepared under this paragraph shall have printed across the top thereof in twelve-point black-face type the following: "Initiative measure to be submitted directly to the electors."

Upon the presentation to the secretary of state, at any time not less than ten days before the commencement of any regular session of the legislature, of a petition certified as herein provided to have been signed by qualified electors of the state equal in number to five per cent of all the votes cast for all candidates for governor at the last preceding general election, at which a governor was elected, proposing a law set forth in full in said petition, the secretary of state shall transmit the same to the legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the legislature, within forty days from the time it is received by the legislature. If any law proposed by such petition shall be enacted by the legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the legislature, within said forty days, the secretary of state shall submit it to the people for approval or rejection at the next ensuing general election. The legislature may reject any measure so proposed by initiative petition and propose a different one on the same subject by a yea and nay vote upon separate roll call, and in such event both measures shall be submitted by the secretary of state to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in twelve-point black-face type the following: "Initiative measure to be presented to the legislature."

The second power reserved to the people shall be known as the referendum. No act passed by the legislature shall go into effect until ninety days after the final adjournment of the session of the legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the state, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect, a statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be passed only upon a yea and nay vote, upon a separate roll call thereon; *provided, however*, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure. Any law so passed by the legislature and declared to be an urgency measure shall go into immediate effect.

Upon the presentation to the secretary of state within ninety days after the final adjournment of the legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to five per cent of all the votes cast for all candidates for governor at the last preceding general election at which a governor was elected, asking that any act or section or part of any act of the legislature be submitted to the electors for their approval or rejection, the secretary of state shall submit to the electors for their approval or rejection, such act, or section or part of such act, at the next succeeding general election, occurring at any time subsequent to thirty days after the filing of said petition or at any special election which may be called by the governor, in his discretion, prior to such regular election, and no such act or section or part of such shall go into effect until and unless

approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any act the remainder of such act shall not be delayed from going into effect.

Any act, law or amendment to the constitution submitted to the people by either initiative or referendum petition and approved by a majority of the votes cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the secretary of state. No act, law or amendment to the constitution, initiated or adopted by the people, shall be subject to the veto power of the governor, and no act, law or amendment to the constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but acts and laws adopted by the people under the referendum provisions of this section may be amended by the legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by the proponents and opponents thereof, shall be mailed to each elector in the same manner as now provided by law as to amendments to the constitution, proposed by the legislature; and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the senate.

If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amendment to the constitution, proposed by the legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any be so proposed, as herein provided.

Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the state shall be competent to solicit said signatures within the county or city and county in which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent to sign such section. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. The affidavit of any person soliciting signatures hereunder shall be verified free of charge by any officer authorized to administer oaths. Such petitions so verified shall be prima facie evidence that the signatures thereon are genuine and that the persons signing the same are qualified electors. Unless and until it be otherwise proven upon official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified electors.

Each section of the petition shall be filed with the clerk or registrar of voters of the county or city and county in which it was circulated, but all said sections circulated in any county or city and county shall be filed at the same time. Within twenty days after the filing of such petition in his office the said clerk, or registrar of voters, shall determine from the records of registration what number of qualified electors have signed the same, and if necessary the board of supervisors shall allow said clerk or registrar additional assistants for the purpose of examining such petition and provide for their compensation. The said clerk or registrar, upon the completion of such examination, shall forthwith attach to said petition, except the signatures thereto appended, his certificate, properly dated, showing the result of said examination and shall forthwith transmit said petition, together with his said certificate, to the secretary of state and also file a copy of said certificate in his office. Within forty days from the transmission of the said petition and certificate by the clerk or registrar to the secretary of state, a supplemental petition identical with the original as to the body of the petition but containing supplemental names, may be filed with the clerk or registrar of voters, as aforesaid. The clerk or registrar of voters shall within ten days after the filing of such supplemental petition make like examination thereof as of the original petition, and upon the completion of such examination shall forthwith attach to said petition his certificate, properly dated, showing the result of said examination, and shall forthwith transmit a copy of said supplemental petition, except the signatures thereto appended, together with his certificate, to the secretary of state.

When the secretary of state shall have received from one or more county clerks or registrars of voters a petition certified as herein provided to have been signed by the

requisite number of qualified electors, he shall forthwith transmit to the county clerk or registrar of voters of every county or city and county in the state his certificate showing such fact. A petition shall be deemed to be filed with the secretary of state upon the date of the receipt by him of a certificate or certificates showing said petition to be signed by the requisite number of electors of the state. Any county clerk or registrar of voters shall, upon receipt of such copy, file the same for record in his office. The duties herein imposed upon the clerk or registrar of voters shall be performed by such registrar of voters in all cases where the office of registrar of voters exists.

The initiative and referendum powers of the people are hereby further reserved to the electors of each county, city and county, city and town of the state, to be exercised under such procedure as may be provided by law. Until otherwise provided by law, the legislative body of any such county, city and county, city or town may provide for the manner of exercising the initiative and referendum powers herein reserved to such counties, cities and counties, cities and towns, but, shall not require more than fifteen per cent of the electors thereof to propose any initiative measure nor more than ten per cent of the electors thereof to order the referendum. Nothing contained in this section shall be construed as affecting or limiting the present or future powers of cities or cities and counties having charters adopted under the provisions of section eight of article eleven of this constitution. In the submission to the electors of any measure under this section, all officers shall be guided by the general laws of this state, except as is herein otherwise provided. This section is self-executing, but legislation may be enacted to facilitate its operation, but in no way limiting or restricting either the provisions of this section or the powers herein reserved.

The boards of supervisors of the several counties of the state shall have general supervision over the roads within their respective counties. They must by proper order:

2. Cause to be recorded as highways all highways which have become such by usage, dedication or abandonment to the public, or by any other means provided by law, and to prepare and record proper deeds and titles thereto.

3. Abolish or abandon such as are not necessary.

4. Acquire the right of way over private property for the use of public highways, and for that purpose require the district attorney to institute proceedings, under title seven, part three, of the Code of Civil Procedure, and to pay therefor from the general road fund or the district road fund of the county.

5. Levy a property tax for road purposes.

6. Cause to be erected and maintained, at the intersections and crossings of highways, guideposts, properly inscribed.

7. Cause the road tax collected each year to be apportioned to the several road districts entitled thereto, and kept by the county treasurer in separate funds.

8. Audit all claims on the funds set apart for highway purposes, and specify the fund, or funds, from which the whole or any part of any claim, or claims, must be paid.

9. In their discretion, they may provide for the establishment of gates on the public highways, in certain cases, to avoid the necessity of building road fences, and prescribe rules and regulations for closing the same, and penalties for violating said rules; *provided*, that the expense for the erection and maintenance of such gates shall in all cases be borne by the party or parties for whose immediate benefit the same shall be ordered.

10. For the purpose of sprinkling the roads in any part of the county with oil or water, the board of supervisors may erect and maintain waterworks and oil tanks and reservoirs and for such purposes may purchase or lease real or personal property. The costs of such waterworks, oil tanks and reservoirs and the sprinkling of said roads with oil or water may be charged to the general county fund, the general road fund, or the district fund of the district or districts benefited.

Whenever it is determined by a four-fifths vote of the board of supervisors of any county that the public convenience and necessity demand the acquisition or construction of a new road in excess of three miles in length or the grading, regrading, paving or macadamizing of any existing road, in excess of three miles in length, and that the cost of such new road when acquired and constructed, or the cost of grading, regrading, paving or macadamizing such existing road, will be too great to pay out of any of the road funds of the county, the board of supervisors may, by resolution passed by a four-fifths vote of said board, determine to acquire or construct such new road, or grade, or regrade, pave, or macadamize such existing road, and if the cost of such new road when constructed, or the cost of grading, regrading, paving or macadamizing such existing road, when completed, shall exceed three thousand dollars, such cost may be charged to the general county fund, the general road fund or the district fund of the district or districts benefited.

11. Whenever it shall be determined that any grading, graveling, macadamizing, ditching, sprinkling, or other work upon highways is necessary, and is to be done, and where the estimated cost of such work amounts to more than one thousand dollars, the board of supervisors must, by proper order, direct the county surveyor to make definite surveys of the proposed work, and to prepare profiles and cross-sections thereof, and to submit the same with the estimate of the amount or amounts of work to be done, and cost thereof, and with specifications thereof. Said report shall be prepared in duplicate, one copy to be filed in the surveyor's office, and the other to be filed with the clerk of the board of supervisors.

The board upon receipt of such report must advertise for bids for the performance of the work specified. Such advertisement for bids must be published prior to the day fixed for the opening of bids for at least once a week for a period of two

weeks in a newspaper of general circulation printed and published in the county. Such advertisement shall be substantially in the following form.

"Office of the clerk of the board of supervisors,

----- county, -----, 19--

Sealed bids will be received by the clerk of the board of supervisors of -----
county, at his office, until ----- o'clock --m., -----, -----, 191 ,
for -----, on -----, in ----- district, in ----- county.

Specifications for this work are on file in the office of the said board, to which bidders are hereby referred.

Clerk of the board of supervisors of
the county of -----"

Bids must be inclosed in sealed envelope, addressed to the clerk of the board of supervisors, and must be indorsed, "Bids for -----," and must be delivered to said clerk prior to the hour specified in the advertisement. The board shall publicly open and read such bids as may be submitted, and must award the contract for the work to the lowest bidder; unless it shall appear to the board that the bids are too high, and the work can be done more cheaply by day labor, in which case the bids must be rejected, and the work ordered done by the road commissioner, or commissioners, in whose district or districts the work may be situated. In case the work shall be let by contract, monthly or quarterly payments may be made thereon upon the receipt of a certified estimate by the county surveyor of the amount of work done during the preceding month or quarter, to the extent of seventy-five per cent of the value of said work, the remaining twenty-five per cent being due on the completion of the work.

Upon the completion of the work, the county surveyor must examine the same, and if completed in accordance with the specifications thereof, he must submit to the board of supervisors a certificate over his signature and official seal to the effect that such work by the contractor therefor, has been completed in accordance with the specifications therefor, and recommending its acceptance. The board shall thereupon audit the same and direct its payment out of the proper fund or funds.

Whenever any county has adopted a county charter under article eleven, section seven and one-half of the constitution of the State of California, providing for the appointment of a road commissioner as a county officer, and the organization of a permanent road department for the construction and maintenance of highways and bridges, the board of supervisors of such county shall have charge of construction, maintenance and repair of all highways and employ an engineer as road commissioner to have charge of the construction and the repairing and maintenance of all roads in such county, under the orders and direction of said board, and may employ such workmen and purchase such materials, equipment, tools and appliances as may be necessary to construct and maintain said roads and to keep them in repair, the cost of such construction, maintenance and repair to be paid out of the county road funds or the general fund of the county, as provided for by the law.

12. In their discretion, they may set apart on any public road or highway a strip of land for a side path, and make an order designating the width of such path and cause the lines separating the path from the road to be located and marked by stakes or posts, placed at such distances apart as they shall deem proper. After said paths have been set apart, and the lines separating the same from the road have been located and marked, as aforesaid, the use of the same is hereby restricted to pedestrians and riders of bicycles and other vehicles propelled solely by the power of the rider.

Expense of erecting and maintaining such path may be charged to the general county fund, the general road fund, and the district fund of the district or districts benefited.

13. The boards of supervisors of any county in the state may by and through an ordinance duly passed permit the use of any of its public highways connecting with any main public highway of an adjoining county by the board of supervisors or highway commissioners of such adjoining county, for the purpose of constructing and maintaining thereon a highway or boulevard serving the needs of residents of both counties; and the board of supervisors of any such adjoining county, if it accepts the provisions of the ordinance adopted by the board of supervisors of the county granting the use, shall have the power to construct and maintain any such

highway or boulevard, or to construct or maintain such bridge or bridges on such highway or boulevard as it may deem necessary, or to macadamize, pave, curb or gutter such highway or boulevard in such manner as it may determine, and the cost or expense thereof shall be paid out of the general fund of the county treasury, or such other fund as the board of supervisors may designate, or which shall otherwise be provided, of the county to which the use is granted. The board of supervisors of any counties proceeding under the provisions of this act may acquire real property adjacent to such public highway in an adjoining county for county purposes, and may expend thereon such funds as said board of supervisors shall deem necessary for county purposes. The boards of supervisors of any counties proceeding under the provisions of this act may by mutual consent, expressed through ordinances of the respective boards, retransfer the use, control, maintenance and jurisdiction of any highway or boulevard constructed under the provisions hereof to the county originally granting the use."

EXPLANATION OF VOTE.

Senator Duncan asked for and was granted unanimous consent to have the following explanation of his vote on Assembly Bill No. 294 printed in the Journal:

EXPLANATION OF VOTE ON ASSEMBLY BILL NO. 294.

Appreciating that the State is facing a deficit in its finances, I have consistently voted during the session against all increases in salary which are chargeable against State funds. In this case one-half of the salary is paid by the county and one-half by the State. I think the taxpayers of the county should also be considered in matters of this character. Having voted thus, I could not consistently vote for this bill.

There is, however, an additional reason why I can not cast an affirmative vote. I think the salary is adequate to the service. The charter in Butte County has

sought to reduce the salaries of county officers rather than raise them. I have received no request from the judge nor from any other person whatever for such increase. The bill was not introduced by the Assemblywoman from Butte County, but this result was accomplished by amending a bill already introduced by another Assemblyman on April 7, 1919, more than six weeks after the reassembling of the Legislature, and I repeat as far as I know there is no demand whatever for the passage of the bill by the people of Butte County.

If it is going to be the policy of the Legislature to raise the salary of every judge where any member of the Legislature asks it, whether desired by the home people or not, I am, of course, entirely willing to abide by the judgment of the body.

There need be no consideration of "senatorial courtesy" actuating the members on this question. If they are for a straight raise all the way down the line, there is no reason why this raise should not be made in Butte County the same as anywhere else, and I will have no feeling of pique or anger over an affirmative vote on this bill.

The only request I have to make is that if this bill is passed that a bill raising the salaries in each of the other three counties of my district be also passed, as there is as much reason in the one case as in the other for an increase.

W. E. DUNCAN, JR.

EXPLANATION OF VOTE.

Senator Duncan asked for and was granted unanimous consent to have the following explanation of his vote on Assembly Bill No. 141 printed in the Journal:

The same line of reasoning which prompted me to vote against raising the salary of the superior judge of the county of Butte applies here.

I believe the taxpayers should be considered in matters of this character, and as the judges of each of these counties are, I believe, adequately paid, and as none of

them to my knowledge have made any request for increased salary, nor has any resident or body within their respective counties made any request for the passage of this bill, I see no reason why it should be passed.

However, while in line with consistent votes in favor of economy cast by me throughout this session I feel constrained to vote against the present measure, I freely state that there is as much reason for this increase as in the case of the superior judge of the county of Butte.

The statement made in connection with the other Assembly bill to the effect that I will feel no personal affront at votes in favor of this bill prompts me to say that consistency on the part of the Legislature should prompt it to put this bill through the same as those of every other kind now before the Senate.

My vote in the negative simply signifies the consistent and uniform policy which I have followed in matters of this character.

W. E. DUNCAN, JR.

WHEREAS, The Legislature at the forty-second session, by Assembly Concurrent Resolution No. 15, did authorize the Governor of the State of California to appoint a committee to investigate and to determine the correct date of the discovery of gold in California by James W. Marshall and to recommend corrections in the inscription on the monument erected at Coloma, El Dorado County, to the memory of James W. Marshall and in commemoration of the discovery of gold in California; and

WHEREAS, Philip Baldwin Bekeart, Fred H. Jung and Grace S. LOS ANGELES, CALIFORNIA, October 15, 1918.

To the Board of Trustees of Sutter's Fort, Sacramento, California.

Stephens, "to determine the exact date of the discovery of gold," herewith submit their findings and make formal request to the Board of Trustees of Sutter's Fort that they take the necessary action to make such change of date effective.

GRACE S. STOERMER, Secretary.

LETTER OF TRANSMITTAL.

LOS ANGELES, CALIFORNIA, October 15, 1918.

*To His Excellency, William D. Stephens, Governor,
State Capitol, Sacramento, California.*

DEAR SIR: The commission appointed to determine the exact date of the discovery of gold in California has the honor to herewith transmit the report of its investigation. The commission held two meetings in San Francisco. There were also conferences and correspondence between the members of the commission.

After much research work on the part of Mr. Phil. B. Bekeart, who devoted considerable time to the subject, the commission submits the following report and determines that the correct date is January 24, 1848.

PHILIP BALDWIN BEKEART,
FRED H. JUNG,
GRACE S. STOERMER, Secretary.

REPORT OF COMMITTEE.

Committee appointed by Governor William D. Stephens to show proof that the date of the discovery of gold at Coloma, Sutter's Mill, as shown on the Marshall statue at Coloma, January 19, 1848, is wrong, and that the correct date is January 24, 1848.

The following report is submitted by Phil. B. Bekeart. He makes no claim for any discovery of the correct date, this date having been proven by the findings of John S. Hittell, the pioneer and historian, in 1885.

James W. Marshall never kept a diary. He attached no historic interest to his discovery at the time it was made. The California Chronicle published a letter February 9, 1856, signed by Marshall, but written by some other person. His next statement, and over his own signature, appeared in Hutching's California Magazine, Vol. 2, No. 5, November, 1857. This published conversation and interview with Marshall was afterward verified in a letter to John S. Hittell, written by J. W. Hutching, December 28, 1885.

In his statement to Hutching, November, 1857, Marshall says: "On or about the nineteenth of January, I am not quite certain to a day, but it was between the eighteenth and twentieth of that month, 1848." "The first piece which I found weighed about fifty cents."

Marshall states he left for Sutter's Fort four days after his discovery, to show Captain Sutter his find, and to prove its genuineness.

In view of this statement of Marshall's, the nineteenth of January was the accepted date of the discovery until 1885, when John S. Hittell happened to hear that one of Marshall's companions at Sutter's Mill in 1848 still lived in Utah, so he wrote to this man, Henry W. Bigler, St. George, Utah, and sent him a copy of an address that he delivered before the Society of California Pioneers, in San Francisco, September 9, 1885. He asked Bigler if this address agreed with his knowledge of Marshall's discovery, and Bigler replied in a letter dated November 29, 1885, that the date was the twenty-fourth, not the nineteenth.

This diary was afterwards obtained from Bigler, and is, I believe, now a part of the Bancroft Library at Berkeley. A facsimile of this diary is in the possession of the Pioneers. It reads:

"Monday 24th. This day some kind of mettle was found in the tail race that looks like gold. First discovered by James Martial the boss of the mill."

General Sutter's diary, now a valued possession of the Society of California Pioneers, records the following few words regarding Marshall:

"Friday, January 28, 1848. Mr. Marshall arrived from the mountains on very important business."

"Saturday, January 29, 1848. Marshall left for the mountains."

Azariah Smith, then a young man of nineteen years, and one of the laborers at Sutter's Mill, also kept a diary. He wrote but once a week (Sunday). His diary, the original of which is in the vaults of the Pioneers, read as follows:

"Sunday, January 30th. Mr. Marshall having arrived, we got liberty of him and built a small house down by the Mill, and last Sunday we moved into it in order to get rid of the Brawling, Partial Mistress, and cook for ourselves. This week Mr. Marshall found some pieces of (as we all suppose) Gold, and he has gone to the Fort for the purpose of finding out. It is found in the roadway in small pieces. Some have been found that would weigh five dollars."

NOTE: This last remark was afterwards explained as follows: Azariah Smith possessed a five-dollar gold piece, and the combined weight of all the flakes picked up by the men weighed about five dollars. There never was a nugget found in the American River at Coloma (Sutter's Mill).—P. B. B.

SUMMARY.

Bigler's diary states that Marshall found the gold on Monday, January 24, 1848. Marshall told Hutchings he left for Sutter's Fort, four days after the discovery. Sutter's diary states that Marshall arrived at the fort on the twentieth.

Smith's diary of Sunday, the thirtieth, states that Marshall discovered gold during the week, and had returned from the fort. If the discovery had been on the nineteenth, Smith would have recorded it on Sunday the twenty-third.

This proves my contention that the date, January 19, 1848, on the Marshall Monument is wrong, and the monument should have the date of discovery January 24, 1848.
